

ESSUS 2010

Life perspective and health related behaviour of students

The 2nd European Symposium on Substance Use and Abuse among University Students November 25-27, 2010

Dear friends,

Please accept this invitation to join us in Košice, Slovakia, November 25-27, 2010, for the second symposium on Substance Use and Abuse among University Students.

The theme of this year is "Life Perspective and Health Related Behavior of Students".

This upcoming symposium creates an excellent opportunity for sharing ideas, insights and experience regarding students' health behavior and its correlates. It is also a great opportunity for meeting researchers and practitioners from different parts of Europe who share common research interests and are looking forward to creating networks based on international and multi-disciplinary cooperation.

We look forward to seeing you!
